It was a gift i swear. Simply GREAT!. Best. Game. Ever.

Super fun! Lots of High speed frantic combos.. It's pretty good. Short, but good!. This game is pretty good as far as the action and gameplay is concerned. But it seems to take a very long time to get a multi-player game going online, which stinks. If you can get a multi-player game going it's good, the only solo-play option is lousy.

Just 85/10!. BEST FREE VR GAME PERIOD 10/10 IGN APPROVED

-short but good and FREEEEEEEE :D. This is one of those fun little free games that says standing play but only really allows for room scale vr. I don't like it at all. Sound, graphics... videos... is really bad and the control is so terrible. I want my money back. I had a 90% coupon, so I'am not angry, just disappointed.

You don't need much thinking.

Your towers(soldiers) are moving, so you have to teleport them from time to time to keep the troop together.

Yawn!. Fun little game, great for small breaks, but there's a lot of room for skill too. Definitely worth the money.
